

RF Exposure Evaluation

RF Exposure Evaluation

No SAR required if power is lower than the flowing threshold 60/f mW.

Frequency (MHz)	Polarization	Peak output power		Threshold Power (mW)
		dBm	mW	
2405.47	Vertical	1.31	1.35	24.95
2405.32	Horizontal	-0.07	0.98	24.95
2440.40	Vertical	0.59	1.15	24.56
2440.30	Horizontal	-2.47	0.57	24.59
2480.40	Vertical	-8.26	0.15	24.19
2479.40	Horizontal	-8.71	0.13	24.19

Conclusion: No SAR is required.
